Following the reading of the report PCSO Relf explained that there seems to have been a spike in incidents over the past month this may be due to more people coming in to see her and make reports. It was noted that there is a feeling that anti-social behaviour in the area seems to be on the increase, Cllr Clarke re-iterated the importance of logging incidents to

the police. Cllr Panks asked the PCSO if the two confirmed hot spots within the village could be monitored more regularly, PCSO Relf proposed to ask colleagues to cover this if the time is available to them. Cllr Panks proposed that this be added to the next agenda for further examination, and for the Clerk to contact the China Clay Community Network Panel with a request that this subject be brought up in the next meeting to see if this is becoming a concern in other local areas.

b) Cornwall Councillor Greenslade reported:

- The work has started at Gavergan for the block works which will potentially decrease heavy transport going through the village
- Cllr Greenslade informed Cllrs about the planning conference held at Kingsley Village, there were attendees from outside the area who were there to share knowledge and show how works were being carried out in other areas, he informed them that when a local plan is in place for Cornwall it will make a difference to the planning procedures that are currently in place.
